LPCB Certified Single Skin System

Our BRE certified LPS 1175 SR2 / B3 high security system, proudly name Imperium-2-35X™ perimeter system is the first point of call where securing your site/property is required. The wire configuration provides an "anti-climb" and cutting deterrent whilst allowing a clear view to the other side of the perimeter system. There are no sharp edges or areas of potential trapping areas which means this system is suitable for all application - from schoolgrounds to detention facilities.

Panel, Post, Clamp Bars:

The Imperium-2-35X™ system allows for “stepping” to follow the topography of the site without any compromise in security and with no time consuming/costly modification requirements on site.

The full length, pre-slotted clamp bar assists in maintaining a consistent fixing point. Our custom Fastmesh anti tamper fixings ensure that even the most difficult of site conditions will not hamper the appearance or performance of the system.

Aesthetically pleasing, easy to install, robust and at a price to suit almost any budget.

System Finish:

Our Imperium-2-35X™ panels are manufactured to BS 4102:1998 and pre-galvanised with a zinc coat weight to conform BS EN 10244-2:2009 class D prior to polyester powder coating.

Fastmesh posts are manufactured in house to ensure conformity, when requested to BS EN 10305:2016 and are galvanised to BS EN 10346:2015. Panels, posts & clamp bars are polyester powder coated to BS EN 13438:2013.

All items undergo rigorous multi-stage inspections to ensure conformity to the above standards and contribute to our 10 year product guarantee.

This product can be provided to conform to the above standard please state this at the point of enquiry and our team will be more than happy to advise to ensure full compliance to any specification.

See separate Terms & Conditions for F10™ Guarantee compliance.
