

# Fastmesh-SPX™

The UK's Number 1 Spectator Rail System

UK Patent Pending No. 2213648.5

**1** Circular handrail - available in contrasting colour

**2** High strength galvanised steel post

**3** Specially manufactured self-locking/engaging top cap utilising industry 1st design.  
(UK Patent Pending No. 2213648.5)

**4** Welded mesh, twin wire rigid mesh panel - available in standard 868 or rebound configuration

**5** MBX40mm anti tamper fully threaded safety bolt

**6** 40x5mm pre slotted clamp bar - galvanised and PPC to suit

## Benefits of using Fastline for Fastmesh-SPX™

- ✓ Robust twin wire design
- ✓ Safe to public areas
- ✓ Industry unique (Patent Pending system)
- ✓ MUGA (multi use gaming areas)
- ✓ Parks & public boundaries
- ✓ Business/ industrial parks
- ✓ Round top rail
- ✓ The fastest-installing system of its kind
- ✓ Easily interchangeable panels
- ✓ Schools/ educational institutions
- ✓ Residential application - see details overleaf
- ✓ Sports stadia

## SECURITY LEVEL: Low

Our Fastmesh-SPX™ is the ultimate spectator rail system; offering an affordable and robust system which is pleasing to the eye (and thanks to our unique Patent Pending design) is the most easily and fastest installed system on the market.

# Fastmesh-SPX™

The UK's Number 1 Spectator Rail System

UK Patent Pending No. 2213648.5

## Panels, Posts and Rails

The system combines 2 horizontal 8mm wires around a single 6mm vertical wire in a flat panel (panel width is 2508mm) configuration and is fixed with our Fastmesh security U-clip, galvanised steel 40x5mm clamp bar (slotted) and anti-tamper bolt into factory fitted threaded post insert.

A spectator friendly CHS (round) top rail makes for perfect demarcation where there is a public interface. Our unique aluminium top cap not only looks quality but is designed to engage with the CHS to ensure the component is secured without the need for additional time consuming fixings (UK Patent Pending No. 2213648.5).

The security steel clamp bar fixing system is both robust and incredibly easy/fast to install. Our custom Fastmesh anti-tamper fixings ensure that even the most difficult of site conditions will not hamper the appearance or performance of the system.

**Aesthetically pleasing, easy to install and security to meet almost all requirements.**

## System Finish:

Our Fastmesh panels are manufactured to BS 4102:1998 and pre-galvanised with a zinc coat weight to conform BS EN 10244-2:2009 class D prior to polyester powder coating.

Fastmesh posts are manufactured in house to ensure conformity, when requested to BS EN10305:2016 and are galvanised to BS EN 10346:2015.

Panels, posts & clamp bars are polyester powder coated to BS EN 13438:2013.

**All items undergo rigorous multi-stage inspections to ensure conformity to the above standards and contribute to our 10 year product guarantee.**

This product can be provided to conform to the above standard please state this at the point of enquiry and our team will be more than happy to advise to ensure full compliance to any specification.

See separate **Terms & Conditions** for F10™ Guarantee compliance.
