SECURITY LEVEL: High

Fastline's Imperium-1 Palisade security fencing system has been independently tested and certified by BRE to LPS 1175 A1 (SR1) standards. As part of the testing process, the system withstood multiple live attack scenarios using a range of tools. BRE also carry out regular audits of manufacturing and procurement processes to ensure high quality standards are maintained for their certified systems.

Specifying Fastline Imperium-1 Palisade

Fastline's Imperium-1 Palisade security fencing system is available to specify via NBS Source and NBS Chorus. The system provides cost-effective, robust, and lost-lasting protection for a range of security applications. The loose assembly of the system allows for raking to follow the topography of a site without any compromise in security, and without time consuming and costly on-site modifications.

For questions on specification, contact Fastline direct using the contact details below.
