# FT-TS-120.01 Turnstile

Full Height, 3 Rota, 120° Turnstile

The Fast-Tech® FT-TS-120.01 Turnstile has been meticulously designed to address the most challenging of requirements with the utmost simplicity. Whether required for high security or as a temporary installation, this is the only solution needed.

Supplied as a plug&play unit, the turnstile arrives fully assembled and ready to bolt in place; connect it into your new or existing access control network. The mechanism is tested to 500,000 cycles and the unit is class A (hot dip) galvanised and polyester powder coated to the RAL colour of your choice to ensure an unrivalled longevity.

Designed in-house, the Fast-Tech® FT-TS-120.01 Turnstile is expertly fabricated in the UK in our principle Fastline factory to ensure we maintain full control over the quality and to allow us unbeatable service in the production and modification of the standard units if required.

## Finish

The unit is hot dip galvanised to BS EN 10346:2015 and polyester powder coated to BS EN 13438:2013. The finish colour to your choice with an option for contrasting rota/ housing colours to assist with DDA compliance.

All Fast-Tech® products undergo rigorous multi-stage inspections to ensure conformity to the above standards and contribute to our product guarantee. Our Fast-Tech® FT-TS-120.01 Turnstile is manufactured in house to exceed all current legislative requirements. When requested, the plug & play module is provided to confirm with guidance as stated in BS 7036-1:1996.

This product can be provided to conform to the above standard please state this at the point of enquiry and our team will be more than happy to advise to ensure full compliance to any specification.

See separate **Terms & Conditions** for F10™ Guarantee compliance. For full details on this or other products, please visit our website [www.fastline-tech.co.uk](http://www.fastline-tech.co.uk)
